

# Excel with Dell Information Session

*Welcome!*

Monday, (2/9) & Tuesday, (2/10)

# Agenda

- Introductions & Welcome
- Dell Overview
- Program Overview
- Case Study
- Program Alumni Guest Speaker
- Fall Recruitment Process
- Next Steps

# What is Dell?

OUR JOURNEY: FROM PCS TO A TECHNOLOGY LEADER

## OUR OFFERINGS TODAY

### Artificial Intelligence (AI)

Cutting-edge AI solutions for various industries.

### IT Infrastructure

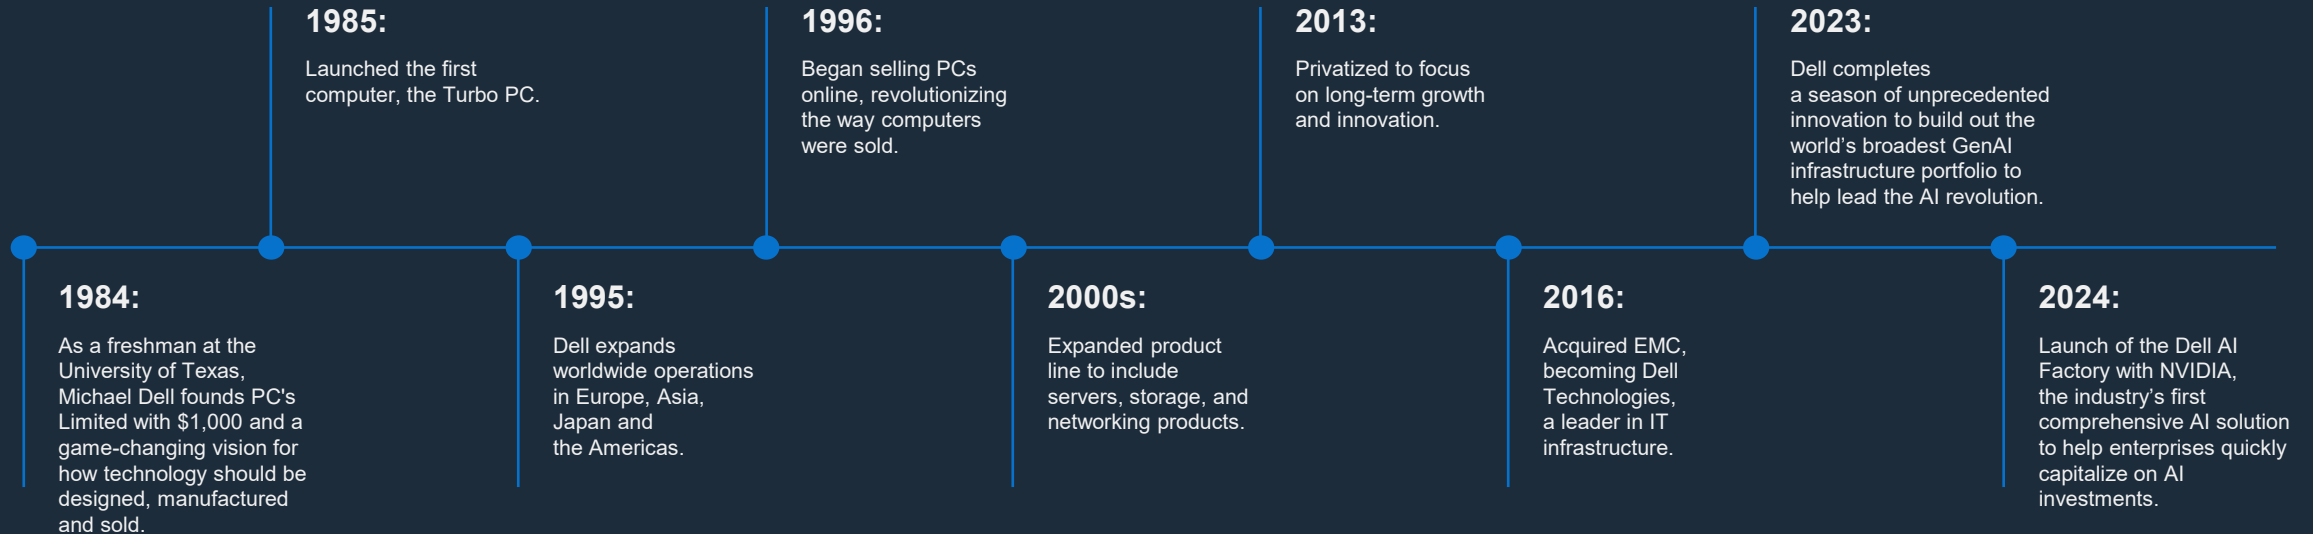

Comprehensive solutions including servers, storage, and networking.

### Computer & Accessories

A wide range of laptops, desktops, and peripherals.

### Services

End-to-end IT services to support businesses of all sizes.

# Program Overview

# Timeline

## FEBRUARY 2026

| SUN | MON | TUE | WED | THU | FRI | SAT |

| 19  | 20  | 21  | 22  | 23  | 24  | 25  |
| 26  | 27  | 28  | 29  | 30  |     |     |

★ Excel with Dell Kick-Off: Information Sessions

★ Workshop Sessions (Must Attend Minimum 3 of 6)

- Tuesdays @4-5PM CST | 5-6PM EST
- Fridays @11AM-12PM CST | 12PM-1PM EST

★ Final Case Presentations + Program End

# Program Expectations

## Get Ready to Start Your Journey!

What You'll Experience:

- AI Implementation Case Competition
- Hands-On Coaching from Dell SMEs and Professionals
- 1:1 Mentorship
- Skill, Career, & Recruitment Workshops

## REQUIREMENTS

*To be eligible to compete in the case competition and the opportunity to receive prize money, you must:*

1

### **Mandatory:** Meet **weekly** with your assigned project team + Dell Advisors

- Meet with your project team without Dell Advisors too!
- Meeting times will be based on a consensus between your entire team
- Tip: Check out Doodle to do group scheduling polls

2

### Have at least **one** 1:1 mentor session with **each** Dell Advisor

- **Mandatory:** You must update & **review your resume** with each of them
- You are **responsible** for initiating & scheduling your 1:1 session
- Must be completed during the program timeframe

3

### Attend a **minimum** of **3** of the **6** workshop sessions

- **Workshop Topics:** Presales, Product Management, Software Engineering, Data Science, Finance, & more!
- **Etiquette:** Cameras On & be prepared with questions! They are taking time out of their workday to help!
- **Highly encourage** to attend additional sessions, beyond the 3 required
- **Dates:** Alternating times Tues/Fridays every other week (calendar invites to follow)
  - Tuesday, 2/17 @4-5PM CST | 5-6PM EST
  - Friday, 2/27 @11AM-12PM CST | 12-1PM EST

*\*Failure to meet these requirements may result in being disqualified from competing in the case competition. Please reach out to Emily if you have any concerns.*

# Dell Technologies' Case Competition

FusionTech Systems: Unlocking Customer Insights with AI

# About the Case Study

*FusionTech needs to modernize their datacenter infrastructure in 12 months AND launch one high-impact AI solution that improves customer experience*

## Three Business Challenges (Pick One)

FusionTech has identified three critical problems hurting their business. Your team will choose ONE to solve with AI:

### Challenge 1: Customer Feedback Blind Spots

**The Problem:** FusionTech collects thousands of product reviews from customers who buy their products through their FusionTech.com platform. But they can't analyze them fast enough. Merchandising and buying teams wait several days for manual summaries, which delays decisions about which products to promote, discontinue, or discount.

**Why It Matters:** If customers are complaining that a specific laptop model overheats or slows down with typical use, FusionTech needs to know immediately. By the time they read manual reports days later, they've already featured that problematic product in their weekly email to 2 million customers, leading to returns, negative reviews, and loss of trust.

### Challenge 2: One-Size-Fits-All Marketing

**The Problem:** FusionTech has diverse customers, from gamers who need high-performance PCs, to business professionals who want reliable workstations, or new parents needing a laptops that can survive drops and spills. Yet they send the same promotional emails and show the same homepage to everyone. Campaign effectiveness and conversion rates are declining.

**Why It Matters:** Imagine a professional photographer getting ads for a budget laptop, or a gamer seeing promotions for business workstations. Generic marketing wastes money and annoys customers. Personalized product recommendations and targeted campaigns could increase conversion rates and reduce unsubscribe rates.

### Challenge 3: Overwhelmed Customer Support

**The Problem:** Customer support requests keep increasing. Long wait times, inconsistent answers from different agents, and frustrated customers are hurting satisfaction scores. The old ticketing system can't handle the volume.

**Why It Matters:** When customers can't get help quickly, they share bad reviews, switch to competitors, and hurt FusionTech's reputation. Better support = happier customers = more repeat business.

## What You'll Build

### Part 1: Design Your AI/ML Solution

Create an end-to-end AI solution for your chosen challenge. Think of this like a blueprint for how FusionTech would actually implement this:

#### a) Data Preparation

Explain how you'd prepare the data for your AI model. What data sources do you need? How would you clean and organize it?

*Example: "We'd combine customer reviews from the CSV with support ticket data, clean up duplicates and missing values, and label reviews by product category."*

#### b) Choose Your AI Approach

Select the AI/ML method that best solves your problem:

- **Sentiment Analysis:** Automatically detect if reviews are positive, negative, or neutral
- **Topic Modeling:** Find common themes in customer feedback (e.g., 'battery problems,' 'great design')
- **Customer Segmentation:** Group customers by behavior, needs, or preferences
- **Recommender Systems:** Suggest products based on customer preferences
- **Intent Classification:** Categorize support requests automatically
- **Chatbot/Agent Assist:** Help support agents answer questions faster

 **Pro Tip:** As a team, you have creative freedom in how you would like to present your AI solution. Just keep in mind that you will be sharing screen.

#### c) How It Works in Practice

Describe who uses your AI solution, where it shows up in their daily work, and how it improves a key metric.

*Example: "Merchandising managers would see a daily dashboard showing the top 5 customer complaints from yesterday's reviews. This reduces the time to identify problematic products from 5 days to 1 day, helping them adjust product placement and promotions 80% faster."*

#### d) Responsible AI Considerations

Address the ethical and practical concerns of your AI solution:

- **Privacy:** How do you protect customer data?
- **Bias:** Could your AI treat some customer groups unfairly?
- **Human-in-the-Loop:** When should humans review AI decisions?

### Part 2: Recommend Dell Technologies Infrastructure

Remember, FusionTech's 8-year-old infrastructure is a bottleneck that's stalling AI projects. Your AI solution needs modern infrastructure to work reliably and scale.

**Choose one main Dell Technologies product that addresses FusionTech's infrastructure problems AND supports your AI workload:**

| Product             | Best For                                                                                                                                             |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| <u>PowerScale</u>   | Massive unstructured data (images, videos, logs, documents) that AI needs to process                                                                 |
| <u>PowerStore</u>   | Fast, flexible storage for databases and apps that need quick AI responses                                                                           |
| <u>PowerEdge</u>    | High-performance computing infrastructure optimized for AI workloads, machine learning training, and data-intensive processing with GPU acceleration |
| <u>PowerProtect</u> | Data backup and recovery to protect against data loss                                                                                                |

Your recommendation should explain:

1. **How it supports your specific AI solution** (e.g., "PowerScale handles the millions of customer review text files our sentiment analysis needs")
2. **How it fixes FusionTech's infrastructure problems** (e.g., eliminates outages, speeds up analytics)
3. **Why this product vs. an alternative** (compare to at least one other Dell product)

# Deliverable & Evaluation Criteria

## Your Presentation: What to Include

**Format:** 10-minute presentation to FusionTech executives  
**Audience:** Executive team with diverse backgrounds (finance, operations, technology, marketing)  
**Requirement:** All team members must speak during the presentation

### Required Sections

- 1. Executive Summary (2 minutes)**
  - Which challenge you chose and why
  - Your recommended AI solution in one sentence
  - Top 2-3 insights from the customer review data
  - Your Dell Technologies infrastructure recommendation
- 2. Data Analysis (2 minutes)**
  - How you cleaned the data (briefly)
  - Key insights: sentiment trends, recurring themes, biggest pain points
  - Visual charts: graphs, word clouds, or topic summaries
- 3. AI/ML Solution (2 minutes)**
  - What type of AI/ML method you're using (e.g., sentiment analysis, clustering)
  - Why this method fits your business challenge
  - Responsible AI: privacy, bias mitigation, human oversight
- 4. Dell Technologies Infrastructure (2 minutes)**
  - Your chosen Dell product (e.g., PowerScale, PowerStore, PowerEdge etc.)
  - How it enables your AI solution
  - How it solves FusionTech's infrastructure bottlenecks
  - Why you chose this product vs. an alternative (compare to at least one other option)
- 5. Business Impact & Implementation (1.5 minutes)**
  - Which metrics improve (e.g., customer satisfaction, response time, marketing ROI)
  - Expected impact over 12 months
  - Simple timeline: 30 days → 90 days → 12 months
- 6. Risk Assessment & Mitigation (0.5 minutes)**

Identify 2-3 biggest risks and how you'd address them:

  - Data quality issues
  - AI misinterpretation
  - Privacy concerns
  - Employee adoption challenges

## How You'll Be Evaluated

| Criteria                            | Weight | What We're Looking For                                                                                                                                     |
|-------------------------------------|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Dataset Analysis                    | 25%    | Did you clean the data properly? Are your insights accurate & meaningful? Do your visuals tell a story?                                                    |
| AI/ML Solution                      | 25%    | Is your AI approach realistic and well-suited to the problem? Can you explain it clearly? Did you consider responsible AI?                                 |
| Business Insights & Recommendations | 20%    | Are your recommendations practical? Do they align with FusionTech's needs? Is the expected business impact clear and believable?                           |
| Dell Infrastructure Recommendation  | 15%    | Did you choose a Dell product for your AI workload? Can you explain why this product vs. alternatives? Does it solve FusionTech's infrastructure problems? |
| Presentation Quality                | 15%    | Is your presentation clear, engaging, and well-organized? Do all team members speak? Are your slides professional and visual?                              |

## Timeline & Deadlines

|                     |                                                                              |
|---------------------|------------------------------------------------------------------------------|
| Submission Deadline | Wednesday, April 1, <u>2026</u> <u>by</u> 2:00 PM EST / 1:00 PM CST          |
| Presentation Dates  | Thursday, April 2, 2026 (1-hour slot)<br>Friday, April 3, 2026 (1-hour slot) |

# Case Team Overview

## Roles & Responsibilities

### Dell Co-Advisors

- SMEs & industry professionals
- Sounding boards and thought partners
- Provide project insights, guidance, & feedback
- Mentor technical, soft, & professional skill growth
- Connect project work to Dell's real business context
- Share insights into Dell careers, day-to-day roles, & Fall recruitment tips

### Program Students

- Schedule team meetings (with and without Advisors)
  - Use tools like Doodle
  - Align on a consistent meeting day/time
  - Be flexible, & practice proactive communication
- Come prepared with weekly project updates
  - Bring questions, progress, and roadblocks to Advisor meetings
- Schedule 1:1 mentor session with each Advisor
  - Bring an updated resume & meaningful questions
- Designate and align on roles within your team

# Navigating Case Team Meetings

*To keep the program fair and equitable for everyone, weekly team meeting attendance is mandatory for all participants.*

## Expectations of Case Team Meetings:

- **Come Prepared:** Align as a team beforehand on questions, updates, and agenda items. Students lead the discussion and should demonstrate clear, weekly progress
- **Use Your Dell Advisor as a Resource:** Share your thought process, ask for feedback, and use their guidance to build real-world solutions and tangible project skills
- **Be Ready to Contribute:** Please be punctual, prepared, and visible on camera. Meaningful participation is the best way for your Dell Advisors to understand your ideas and help you grow
- **Stay Organized:** Assign roles, document action items, and keep communication consistent so your team remains aligned and moves forward efficiently

## First Team Meeting Agenda Example:

- Introductions
- Review Case Study
- Identify Roles & Responsibilities
- Create a Project Timeline
- Engage with Your Dell Advisors:
  - What are their expectations for communication & meeting structure?
  - Where is their expertise and how do they prefer to support your team?
  - What is the best way to keep them updated and seek feedback?

# Navigating 1:1 Mentor Conversations

*In addition to attending project team meetings and workshops, you are **required** to meet at least **once** with each of your Dell Advisors*

## Expectations of Mentorship:

- **Come Prepared:** Always bring questions and agenda items to your mentor meetings. Show that you've thought about what you want to learn or discuss. You are expected to schedule each meeting.
- **Use Your Mentor as a Resource:** Tap into their experience, ask for help with your resume, LinkedIn Profile, interview prep, or navigating job applications
- **Respect their Time:** Be punctual, professional, and appreciative. A strong mentor relationship can lead to long-term connections and even future opportunities.

## Ask Thoughtful Questions:

- What does a typical day look like in their role?
- What tools, technologies, or platforms do they use regularly?
- How did they get started in tech, and what has their career progression looked like?
- What's unique about Dell's company culture, and how can you align with it?

# Excel with Dell Program Alumni

Nicole Zeng & Hasya Magesh

# Hasya Mageesh

## Photos

## About Me

### Education:

**University: The University of Texas at Austin**  
**Major & Grad Year: MIS, Spring 2028**

### Upcoming Internship:

**Role: HR Intern @ Dell**

## Tips & Tricks

### School Advice:

- Participate and network
- Join skill demonstrating events/orgs
- Find your community

### Recruitment Advice:

- Attend company events
- Connect with Professors
- Coffee Chats
- Alumni Network

### Excel with Dell Program Advice:

- Network with mentors
- Meet with Program Managers
- Get to know peers and mentors personally

# Nicole Zeng

## Photos

## About Me

### Education

**School/University:** The University of Texas at Austin

**Major & Grad Year:** Finance, 2028

### Upcoming Internship:

**Role:** Finance Undergraduate Intern

## Tips & Tricks

### School Advice

- Get out of your comfort zone
- Learn how to prioritize + time manage
- Take initiative and reach out to people

### Recruitment Advice

- It's a numbers game but be intentional
- STAR method & xyz method
- Show your personality
- Have a strong why x company

### Excel with Dell Program Advice

- Use your mentors
- Be proactive! You get what you put in
- Focus on your content
- Have fun lol

# Tips & Tricks – How to Maximize Your Experience!

***“You get out what you put in. If you want more, give more!”***

**Be Curious & Proactive:** Ask questions and take initiative in your learning. Embrace ambiguity, meaning situations where things aren't fully defined or the answer isn't obvious. Growth happens when you're willing to explore and figure things out.

**Treat it Like a Real Job:** Practice professionalism! Show up on time, be prepared, & communicate professionally. Keep track of what you're learning – technical & soft skills – & use that to update your resume and LinkedIn. Make sure to document your learnings throughout the program!

**Engage Fully & Stand Out:** Immerse yourself in the company culture, go above and beyond in participation, show genuine interest in the work being done. This is your chance to make a strong impression for future opportunities

## What You'll Gain:

### PROFESSIONAL DEVELOPMENT

- Strengthen your Resume
- Career Insights & Networking Connections
- Build Recruitment-Ready Skills
- Explore Job Opportunities at Dell

### TECHNICAL SKILL DEVELOPMENT

- Hands-On, Project-Based Experience
- Boost Understanding of Dell's Data Infrastructure
- Apply Classroom Learning to Real Business Challenges

### SOFT SKILL DEVELOPMENT

- Communicate Clearly
- Present Your Ideas Confidently
- Collaborate Effectively in Diverse Teams

### BONUS

- Prize Money for Top 3 Winning Teams
- *Note: must meet all attendance requirements to be eligible*

# Dell's Recruitment Process

## PURPOSE

To cultivate the next generation of innovative thinkers and leaders by providing students with hands-on experience in various fields while developing valuable skills and making meaningful contributions and connections.

### Locations:

**Round Rock, TX**  
**Hopkinton / Franklin, MA**  
Palo Alto, CA

### Timeframe:

**Applications Open:** Aug/Sept for following Summer  
**Internship:** End of May / Early June – Beginning of Aug.

### Resources:

Professional Development Workshops  
Peer Advisor / Buddy, Manager & BU Champion  
Intern-Focused Social and Development Events

### Project-Based

*The opportunity to gain hands-on experience and contribute to the organization's overall goals*

#### Project Examples:

Business & Sales Operations – Portfolio Optimization:  
Use data analytics to establish a sales strategy to increase productivity and deliver incremental growth

AI Agentic Framework Built POC agents to enhance Dell products, PowerStore, etc.

Partnered Solutions Developed blueprints leveraging partner IP

### Mentorship / Development

- Develop your Skills
- Innovate & Create Meaningful Connections
- Intern Mentorship Toolkit
- Tiered Mentor System within the Business Unit
- Access to Mentors Across

*\*Employee Resource Group Showcase  
Executive Speaker Series  
Financial Literacy Workshops*

### Skillsets

- Adaptable
- Critical Thinking
- Problem Solver
- Commutation & Leadership / Collaboration
- Presentation Skills
- Excel Proficiency
- Data Driven
- Cloud Platforms (AWS, Azure, Google Cloud)\*
- AI Proficient\*
- Machine Learning Frameworks\*
- Programming Languages (Python, SQL, Java)

### Interviews

- # of Interview Rounds Dependent on Business Unit
- All Virtual
- Prepare for Behavioral-Style Questions
- HackerRank
  - Intern: Typically, a 90min assessment (SW Engineering only)
  - FT: Live Coding Session for second-round interview

# Dell Technologies New Grad Rotational Programs

## PURPOSE

At Dell Technologies, we invest in our college graduate hires by offering continuous opportunities to grow strategic, technical, and networking skills. New-Hires gain real-world project experience, build community, engage in service, and thrive in Dell's inclusive culture.

### Locations:

- Round Rock, TX
- Hopkinton/Franklin, MA
- Nashville, TN

### Timeframe:

- Rotation Length: 6 to 12 months
- Program Duration: 2 to 3 years
- Start Dates:  
Early February (Dec. grads) | Early August (Spring grads) | Year-round (Sales)

### Interview:

- # of Interview Rounds Dependent on Business Unit
- All Virtual
- Prepare for Behavioral-Style Questions
- Hack-a-thon or Technical Case Study for some

### Rotation Examples:

- AI Agentic Framework: Built POC agents to enhance Dell products, PowerStore, etc.
- Employee Relations Investigator: Resolved employee concerns while ensuring compliance with HR policies and labor laws.

# Update Your Resume!

## Tailor your Resume based on your Area of Expertise (Business vs Technical)

Dell Technologies' Excel with Dell Program  
Participant

February 2026 - Present

- Selected as **1 of 51** students from 325+ applicants to participate in Dell Technologies' competitive Excel with Dell virtual development program, focused on AI, mentorship, and applied learning.
- Collaborate in a team-based AI Case Competition to design a real-world business solution, gaining hands-on experience with data infrastructure concepts, project management, communication, and cross-functional teamwork.
- Engage in weekly coaching and mentorship from Dell SMEs to strengthen technical, professional, and soft skills — including presenting ideas confidently, translating academic coursework into business context, and building recruitment-ready competencies.

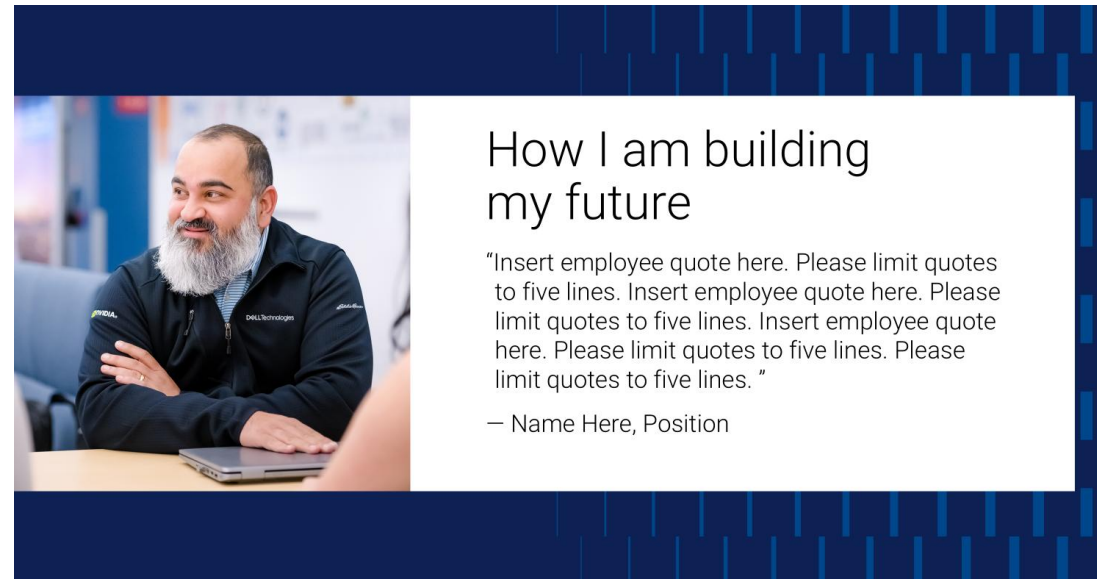

**Note:** After completion of the program – you are able to add more specific details to your resume, in particular:

- **Role/Contribution** within the Team (*how* you contributed)
- **Tools Used:** Python, SQL, Power BI, etc.
- **Concepts/Methods Applied:** Prompt Engineering, Workflow Design, Solution Architecture Concepts
- **Metrics & Outcomes:** Projected ROI, Efficiency Gains, Cost Savings, Accuracy Improvements, etc.

# Post Your Accomplishment on LinkedIn!

Use this template & guide if you would like to promote your selection into this program!

(Note: Template will be attached in a follow-up email after this call)

- Add a photo of yourself on the left
- Header: **“Selected for the Excel with Dell Program”**
- **Brief Description of the Program:**
  - “I have been selected to participate in an 8-week immersive program exploring Dell’s cutting-edge technologies and Data Infrastructure solutions. I am collaborating with students nationwide on a real-world case focused on AI Implementation & Modernization, gaining hands-on project experience and learning how to translate classroom knowledge into a corporate environment. I’m excited to deepen my technical and professional skills while learning how Dell is shaping the future of the AI era.” #ExcelwithDell

# Next Steps

- **Schedule first team meeting (Week 1) with your Dell Advisors** between **now and Friday!** It is the student's responsibility to schedule time. Please be mindful & respectful of Dell Advisors' Working Hours.
- **Update Your Resume:** include that you are now officially a *participant* in *Dell Technologies' Excel with Dell Program*. Please update your resume and have it ready to be reviewed with your Dell Advisors
- **Schedule your 1:1 with each of your Dell Advisors in advance:** schedules and calendars will get busier! Make sure to reach out and schedule – the earlier, the better!
- **Attendance:** Please ensure you are meeting weekly with your project team & Dell Advisors, having 1:1 mentor sessions, and attending at least 3 of the 6 workshop sessions hosted throughout the program. Failure to meet requirements may result in being disqualified from the case competition.

## Program/Recruitment Questions:

Emily Tieu ([emily.tieu@dell.com](mailto:emily.tieu@dell.com))

## Optional Weekly Office Hours:

Every Friday @11-11:30AM CST

## Attend Next Week's Workshop:

When: Tuesday, 2/17, form 4-5PM CST

**Topic:** Introduction to Presales Solutions Architect – learn about Dell's Data Infrastructure Solutions

*(content will be extremely helpful with the case study!)*
